**John R. Gibson & Co.**

Dear Amy—Of course you absolutely must have a nice parlor so you can entertain company. But I believe in having a nice parlor for your own family all of the time, and that they should use it. Children are influenced so much by their surroundings, and the best way to keep the boys home at nights, and out of mischief, is to make home attractive and happy for them. When Baby John grows up he shall have a nice home.

Your chum, Lou.

**FRANK JAMES,**  
The Outlaw of Old Days Now  
Leads a Quiet Life.

"There has been much in my life that I don't want to think of—would to God I could forget it. Years before I quit the old life I was as tired of it as the other people."

The speaker was Frank James, modern Robin Hood, brother of Jesse James, the outlaw, and at present a berry picker at Edgewood, Wash. The place was G. W. Glazebrook's grocery, in Tacoma, one day last week.

"We got into it and it was our lives against money," said Mr. James.

"Suffered! We have been hungry with our pockets full of money; have been hunted like the wolves of the prairie."

"I could not write the history of my life in five years. I have only a short time to live, anyhow, and money is no more to me than the dust under my feet. I am going to live a quiet life."

"The first I knew that Frank James was in this part of the country," said Mr. Glazebrook, the grocer, "was when I received a crate of berries with 'F. E. James' written on the end. I asked Mr. Hildgren, the rancher, about it and he said he would take me out to see James any time I wanted to go."

"We found James sitting in the door of his cabin, dressed like a logger. As we came close he stood up. 'I am very glad to see you, sir,' he said, as Mr. Hildgren introduced us. After a while Mr. Hildgren left. I told him I was from Kentucky and he seemed to know how to take me then. This was two weeks ago. Last Friday he came into Tacoma and spent five days with me."

"I asked him how he got started in this work. He said it was the abuse he had received at the hands of the men who had killed his father—all through suspicion that they were harboring the Southern soldiers. He said he and Jesse 'got' 21 of them and that God Almighty got the other."

"After six detectives, as James calls them, had thrown a bomb into their house, killing his younger brother and wounding his mother, the James boys dressed as cowboys and overtook the men. They asked them what they would do if they should meet the James boys."

"We would stick them on the ends of our guns," the men replied.

"You are talking to Jesse James right now, and that is my brother Frank standing there," said Jesse. They pleaded for their lives, but the James boys told them they had shown no mercy to their young brother or to their mother."

"Frank James smiled when telling of the detectives. 'They thought all they had to do was to come over there, pat us on the shoulders and tell us to come along,' he said. 'They never got back themselves.'"

"Of all their 'work' Frank James considers the Northfield robbery the biggest. Two banks were 'lifted' and over \$80,000 in cash taken. The two Cobb brothers and a man named Mitchell lost their lives. Jim Younger was seriously wounded and Frank James lost the most of one hand."

"Jesse James was killed by Bob Ford in Sept., 1882, while hanging up a picture of himself and Frank in their house. Frank surrendered in October, 1882, and after two years he was released on parole."

"Several years later, disguised as a cowboy, he met Bob Ford in a Kansas City dance hall. He offered to treat the crowd and stepped up to the bar. Ten dollars were laid on the counter. Ford returned \$2.50. Frank James told him who he was. What followed is a matter of history."

"James told me that when he was in Tacoma two years ago some men asked him to take charge of blowing the safes of the National Bank of Commerce and the Fidelity Trust Co.'s bank. 'I told them,' said James, 'that I did not want to have anything to do with the work; that I had never been in it for money and that I had given all that up years ago.'"

"James always speaks of his adventures as being 'on the trail.' He says that instead of using masks they had a dark stain. After the job was over they removed the stain quickly and changed clothes, often joining in the pursuit of the bandits."

"They never robbed or abused women, children or the poor. He said: 'While many a stray piece of jewelry or money has been fastened to the door knob of some house.' They confined their attention mainly to train and bank robberies after the war was over."

"Frank James will be 70 years old next March. He has a wife, four married children and a 16-year-old daughter living at Blaine. During the winter he works as donkey engineer in the logging camp near Tacoma. In the summer he picks berries."

"He is slim, has a gray mustache, is six feet tall and is cool and collected, slow-spoken and apparently easy-going. He seems to have very little of the Missourian dialect. He is courteous, but reserved, and while friendly, does not force himself forward."

**Pope Makes Appeal For Peace.**

Pope Benedict XV issued an encyclical calling upon the entire Catholic world to pray for peace.

He asked that the Italian Government set an example of moderation and strive toward peace.

In stating that this is his first public address since his election as Pope, the pontiff declared it was a continuation of the efforts of Pope Pius X to bring about peace, so deeply desired by him.

**Distinguished Visitor to Attend State S. S. Convention.**

Prof. H. M. Hamill, D. D., of Nashville, Tenn., President of the International Sunday School Association, will be one of the speakers at the State Convention of the Kentucky Sunday School Association to be held in Lexington, Oct. 20-23. Dr. Hamill is a Southern man; entered the Confederate Army when a mere boy; at the close of the war he became a minister in the Southern Methodist Church, and soon began making a special study of the Sunday School and has been one of the leaders in every movement from that date to the present that has for its object the improvement of the Sunday School work of America. He was one of the first men to emphasize the need of trained teachers in the Sunday Schools, and in order to secure these he prepared a course of study, which has been the basis for most of the teacher training work in America. He is a wonderful teacher and speaker; every teacher in Kentucky that can possibly do so ought to hear him.

Mrs. Hamill will also be one of the speakers at the convention; she has made a special study of the child and presents in a most attractive way plans and methods for winning and holding our children.

For particulars in regard to the convention, write to the Kentucky Sunday School Association, 712 Louisville Trust Building, Louisville, Ky.

**A Story of Two Boys.**

Once a merchant wanted an additional clerk, so he advertised for a boy. The first boy to answer was taken into a room and told to wait. While idly waiting he saw a one dollar bill folded closely as though it had just been dropped from some one's pocket. He picked up the bill and put it in his pocket. Almost at once the merchant came in, and, after asking a few questions, said he "wouldn't do."

The next boy was seated in the same chair, and he also saw a one dollar bill on the floor. He picked it up and laid it on the table. The merchant came in, and after asking some questions, pointed to the bill and asked where it came from. The boy said he saw it on the floor, and put it where it would be safe. The merchant said: "As it didn't belong to any one why did not you keep it?" The boy replied: "Because it did not belong to me."

"My boy," the merchant said, "you have chosen the road which leads to business success. The boy before you chose the wrong one. How did you learn that this was the right path?"

The boy answered: "My mother made me promise never, under any circumstances, to take what did not belong to me. And I promised."

When this boy became a man he was made Secretary of the Treasury.—Ex.

**Stop That First Fall Cough**

Check your fall cough or cold at once—don't wait—it may lead to serious lung trouble, weaken your vitality and develop a chronic lung ailment. Get a bottle of Dr. Bell's Pine-Tar-Honey today; it is pure and harmless—use it freely for that fall cough or cold. If Baby or children are sick give it to them, it will relieve quickly and permanently. It soothes the irritated throat, lungs and air passages. It surely prevents cold germs from getting a hold. Guaranteed. Only 25c. at your Druggist. adv.

**Coming Back.**

One of the Danville papers remarks that many of the colored people who left in the spring for points in Ohio and Indiana, are coming back home for the winter. We presume the arrivals do not include that noted Danville character whose escapes from the workhouse have been so frequent that he has something like a thousand or fifteen hundred years to serve under the penalties prescribed in Danville for leg bail. Doubtless there are others returning, however, who will prevent the workhouse population from falling off seriously this winter.

**Exit "Little Pepper."**

The "Little Pepper" distillery in Fayette county has been closed, after being in operation for 54 years for the manufacture and storage of whisky. No whisky has been made there, as a matter of fact, for the past eight years, and the last of the stock was shipped out on last Tuesday. But if there is to be no more "Little Pepper," there will be no lack of whisky with a sufficiency of "pep" in it to meet the requirements of the most exacting booze lover. And we believe that "Big Pepper" is still grinding, with no indication of a let-up, even in the remote contingency that Fayette county shall vote dry at the coming local option election.

**Hats Off to The Mule.**

I know the mule is much maligned by many who talk and write about him, but there is no animal that is easier to handle if treated kindly. Not long ago I was talking to a successful raiser of mules, who said he would rather break a team of the hybrids than a team of horses, they not being nearly so nervous and steady goers. Kindness is his policy in dealing with them. There is no doubt that he is as susceptible to decent treatment as any other animal, and it is not necessary for a man to be armed with a club when handling a team of mules.

**What Editors Know.**

A good many editors are said not to know much, says an exchange.

The trouble is that they know a lot of stuff that they dare not tell. They know who drinks and they know the ladies who deviate from the straight and narrow path of rectitude; and the boys who smoke in alleys and dark places, and the girls who are out auto riding till the roosters crow for daylight. They know the fellows who are good to pay and also know the fellow who can't get trusted for a tobacco sack full of salt. They could guess at once why some fellows are as they are, and they can guess closely what they do to make themselves so. They know enough to make one of the red-hottest, rip-snorting, high-gearred, triple action, chain lightning editions you ever read; but they also know it is best for the community and themselves to let the law take care of humanity's development and publish only such news as will do to read in the home. Editors generally pursue this policy and thereby live longer and get more enjoyment out of life.

**"Old Beck," Aged 38.**

"Old Beck," perhaps the oldest mule in the country, the property of A. D. Purdy, of Bradfordsville, died Sunday at the advanced age of 38 years. The animal was purchased by Mr. Purdy's father when 4 years old and had served the family faithfully and continuously for 34 years. During all these years "Old Beck" never refused to work any place on the farm she was put and was faithful in every emergency. Perfectly safe, any member of the family could drive her, and even the children carried her without fear of being harmed. Last Monday Mr. Purdy decided that the faithful animal had done her share of work, so "Old Beck" was placed on the retired list and turned into the best pasture on the farm to spend the remainder of her days in quietude.—Lebanon Enterprise.

**CHURCH NOTES.**

Can anyone believing in God give any reason for not going to church? The church stands for the purity and sanctity of the home, the purity and rectitude of personal life, the highest morals, the best laws. It stands for justice, righteousness and good government. It is the great instigator and patron of all true benevolence. Skepticism never founded an asylum.

A grand Sunday school rally will be held with the church at Flatwoods, Sunday, September 27. Dr. R. H. Cross, field, of Transylvania University, will deliver two sermons, morning and afternoon. Sunday school exercises will be held after the morning service. Lunch will be served on the ground for all. A cordial invitation is extended all.

Dr. W. L. Gevedon will preach at the Regular Baptist church on Second St. next Saturday at 11 o'clock a. m., and at 3 o'clock p. m., also Sunday morning at 11 a. m., and at 3 p. m.

Dr. W. L. Gevedon will preach at Kavanagh school house next Saturday and Sunday night.

Attendance at Christian church Sunday school last Sunday, 558; collection, \$21.93. Sunday, September 27, the contest with Danville will close. Supt. John Arnold is particularly anxious that there should be a large attendance on the last day and asks us to urge every member and every friend of the good cause to come and bring one or more with him. The desire is to make it a record breaking day.

There was much disappointment in Mr. Turley's Bible class not being able to accept the invitation of Mr. Sterling to be with them last Sunday to meet with Bible classes from Paris, Winchester and from the entire County of Montgomery and the city of Mt. Sterling included. Satisfactory transportation arrangements could not be made, and for this reason the trip had to be abandoned.

Rev. R. L. Telford, of Franklin, N. C., will preach at the First Presbyterian church Sunday morning and evening.

Next Sunday is going to be "Banner Day" at the Flatwoods Christian Church Sunday School. Rev. Calhoun, of Lexington, who held such a successful meeting with the church some time since, will be on hand. Dinner will be served on the ground. The largest attendance of the year is expected.

Mr. and Mrs. J. Gideon Taylor, of near town attended the dedication of the Baptist church at Irvine last Sunday. They report a big crowd in attendance.

Dr. Powell, of Louisville, preached the sermon. Money enough to clear the church of debt was raised. A bountiful dinner was served on the ground.

**The Climax Delivered The Goods.**

About the middle of June a gentleman living between Richmond and Lexington (Lexington, Ky., R. D. 10 was his address), lost a pocket book containing a \$10 bill, some small change, a ring and several other articles. It was advertised in one of the Lexington dailies for some days without result. Last week an ad. was sent to the Climax. The paper came out Wednesday morning. On Thursday a young man named Boyd Wells read the local about the loss and Sunday last returned the pocket book with all its contents to the owner. Young Mr. Wells declined to accept any reward, but the owner of the pocket book insisted that he should receive some compensation. That was an honest young man and it shows that the Climax is the place to advertise if you want to get results, as it is read in practically every nook and corner of this and neighboring counties.

**The Masonic Temple Collapses.**

On last Saturday morning, about 8 o'clock, our whole town was startled by a noise resembling the rumbling of an avalanche, and so it proved to be. The front of the Masonic Temple, the lower floor of which was occupied by the clothing firm of R. C. H. Covington Co., had, almost without warning, collapsed. The cause is still a matter of speculation, but is supposed to have been brought about by the slow undermining of the foundation from water. The colored boy, John Cobb, noticed first about 7 o'clock and called Mr. Covington's attention to the same when he came to the store. A little later the large plate glass in the window cracked and almost before any one dreamed of the serious condition of the front, down it came with a roar. All of the employees ran out through the rear and no one was hurt, although the dust for an instant enveloped them. This was indeed fortunate, we might say providential.

This property was purchased by the Masons about 20 years ago from W. E. Luxon, who built the house in 1871. In 1898 an attractive new front and a very large addition was made, having a beautiful club-room and lecture hall in the second story, while the third story was occupied exclusively by the several branches of the Order. The beautiful asylum is damaged very little, but the "Blue Lodge" room and the club-rooms on the second story are completely wrecked.

The loss in dollars and cents will be very large, probably \$7,500, while the destruction of the old portraits of Col. John Speed Smith and his son, John Speed Smith, Jr., as well as those of Col. Holloway and Judge E. W. Turner, all Past Grand Masters, cannot be replaced. Another severe loss was the Masonic library, containing a complete set of all the Grand Lodge reports from 1819 to the present. These books had been given to the Lodge only last year by William Fowler, of Washington county, and they cannot be replaced. It is the intention of the Masonic Temple Company to begin immediately the reconstruction of the building.

**Go Wet.**  
The counties of Christian, Daviess and McCracken held local option elections Monday and all three voted "wet." Owensboro, Hopkinsville and Paducah are the county seats of these counties.

**The Sick.**  
Al. Williams, of Red House, continues to improve and with no back set will be out in a few days.

Mrs. E. C. Wines, Sr., continues quite sick at her home on Collins street. Her family and friends are uneasy as to her condition, which they regard as serious.

Mr. R. E. Turley hears daily from his wife who was operated on a week ago at Rochester, Minn. She is improving steadily and hopes to be home in about ten days.

Mrs. Wm. H. Miller, who has been ill at her home on North street for several months, continues in practically the same condition. Little if any change is noted in her condition for some weeks past.

Mrs. R. B. Terrill is recovering nicely from the accident she sustained some ten days ago.

Mrs. Jessena of Xenia, O., and mother of Capt. C. S. Jessup, express agent this city, continues very ill. Capt. Jessup goes to spend a day or two with her every few weeks.

**"The Queen of The Movies"**  
In Lexington.

"The Queen of The Movies," which will be the attraction at the Ben Ali theatre, Lexington, for three performances, Sept. 28-29, with a matinee on Tuesday, is a musical comedy with real music, honest-to-goodness comedy, a cast filled with strong individuals and contains a chorus the like of which its beauty and shapeliness has never before been seen away from Broadway.

In an era noted for the extravagance and display of its theatrical exhibits, "The Queen of The Movies" ranks as the season's most prodigious specimen.

"The Queen of The Movies" is full of snap from the rise of the curtain, brimming over with all that is the last word in the dancing world and its catchy songs and up-to-date dialogue is enough to carry two entertainments of its kind. The company consists of 80 people and an all-star cast headed by Miss May De Saus.

The story is that of a war between the movies and anti-movies, with Cecilia Gill representing the movies and Mrs. Clutterbuck, society leader and wife of a millionaire, leading the anti-movie with her husband's name and money backing her. The battle is going rather against the movies until Cecilia conceives the idea of getting a film of Mr. Clutterbuck and hers elf, trusting to its possession to force the anti to abandon their warfare. Of course she wins.

The fun of this new and exhilarating musical comedy is kept at top-speed throughout the entire performance. The dances are new and bewilderingly graceful. The music is a delight and half a dozen of the numbers—"Oh, Cecilia," "Follow the Crowd," "In the Night," "Girls, Run Along," "Whistle" and "Mooching Along," have been sung, whistled and danced to throughout the land.

This attraction will be given with a specially augmented orchestra. Seats ready Friday, 25th. Remittances sent to Manager Charles Scott will receive prompt attention.

**ORDINANCE.**

Be it ordained by the Board of Council of the City of Richmond, Ky., that the hereinafter named property-holders, W. D. Oldham, W. S. Oldham, Charles Terrill, Dan Breck and Wm. Gormley, located on Breck Avenue, in Richmond, Ky., be, and the same are hereby ordered, to construct and maintain concrete pavements, curbs and gutters in front of and abutting upon their property. Said pavement shall be constructed according to specifications on file with the Mayor and which have been heretofore adopted by the Board of Council for the construction of pavements, curbs and gutters in said city.

Copyright, 1914, by Panama-Pacific International Exposition Co.

THE doorway shown is one of the lesser portals of this palace and overlooks the South Gardens and the southern end of the Fine Arts Lagoon. In influence the portal is early Italian renaissance. The twisted fluted Roman columns have been given an eastern flavor by the application of contrasting colors in alternation, applied under the direction of Jules Guerin, director of color of the Exposition. The portal is over thirty feet in height. The outer wall of the palace is sixty-five feet high.

## GREATEST WAR

### Sixteen Million Men Are Now Under Arms In Europe.

(Scientific American)

To appreciate the stupendous character of the war of the nations, which is now in full swing on the continent of Europe, we must bear in mind two facts: First, that it is a war to the death; second, that in the full realization of the absolute finality of the result, every one of the contending nations has already called out, or has stated that it will do so, the whole of its trained reserves, thus putting 16,000,000 of men under arms.

In point of magnitude the present conflict is absolutely without a parallel. Never, in all the history of the world, have there been marshaled on the field of battle armies that even approached in numbers the hosts which are drawn up upon the frontiers of Germany and Austria. Not in the campaigns of Napoleon, nor the great Franco-German struggle of 1870-71, nor yet the seven day battle of Mukden between Russia and Japan, was there such a gathering of warring hosts. As for the historic conflicts of ancient days, when the hordes of the East poured in a human flood over Europe, later historical criticism has thrown doubt upon the reputed numbers engaged.

At the present writing it is not unlikely that there are facing each other on a 250-mile battle line, reaching from Antwerp, Belgium to Basle, Switzerland, approximately 2,500,000 men, about equally divided between the allied British, French and Belgians, and the allied Germans and Austrians. These represent the standing armies, the flower of the national troops engaged.

To the east, along the borders of Germany and Austria, Germany has massed by this time some 600,000 of her second line of reserves, and Austria is moving to her own northern frontiers, and to assistance of Germany in Alsace and Lorraine another 400,000 men. Russia has announced that her mobilization is complete, which means that she is moving down upon the German and Austrian frontiers her standing army of over 1,250,000 men.

And while these 5,000,000 troops are on the fighting line, there being gradually assembled at the various camps and equipped for the field as they may be needed, the 10,000,000 trained reserves—every one having spent two or three years with the colors.

In all the countries engaged in this war, except England, military service is compulsory. In England service is voluntary, the men enlisting for 7 years, at the close of which they enter the reserve. The war strength of the English army is 156,000 men, and of these, three army corps of 120,000, have been landed on the continent and form part of the allied army. The whole of the reserves, 476,000 strong, have been called the colors, and will be sent to strengthen the allies.

Compulsory service or conscription, as practiced in the German army where it was first fully developed, is broadly representative of its operation of the practice in all European armies.

Actual service in the German army begins at the age of 30. The young man joins the colors and remains with them three years. He then passes to the reserve for four years, during which he is called out for training with his corps twice for a period of about six weeks. He is then drafted into the "first ban" of the Landwehr for five years, in which he is given two trainings lasting from eight to fourteen days. At 32 he passes into the "second ban," where he remains until he is 39. He now passes into the first ban of the Landsturm, where he remains until his forty-fifth year. The second ban of the Landsturm consists of men who have had no military training.

## Game Birds Plentiful.

Quail are reported much more plentiful this year than for the last two seasons, says J. Q. Ward, executive agent of the State Game and Fish Commission. A shortage of cover, due to the prolonged drought, he believes, will make the sport exceptionally fine when the season opens the middle of November. Last year unseasonable floods washed away the nests at brooding time, and the year before flood and cold weather got many of the birds. At the same time market hunters were slaughtering and shipping out of the State hundreds of thousands of birds. By co-operation between the State and Federal departments, that has been made too hazardous an occupation to be profitable and Kentucky is rapidly being restocked.

Try Lackey & Todd's teas and coffees. They are good. Phone 62. 32-1f.

## The Farmers' Opportunity.

W. P. WALTON.

The foreigners' extremity is the American farmers' opportunity. Agriculture is practically suspended in most of Europe on account of the farmers being enlisted in the fighting armies. They have to be fed, and it falls upon the farmers of this country to furnish the supplies. Most everything that the farms produce will be in great demand, and it behooves the producers to make every acre possible contribute the maximum. Wheat and corn especially will be in great demand, and as the former crop is soon to be sown, he is wise who will sow the largest acreage he can. Intelligent farming has improved the yield and the quality of crops, while decreasing the former labor and toil in producing them. With increased acreage and improved methods there is hardly a limit to the possibilities for the farmer, and with the market that the European armies will supply his opportunity is such that rarely comes in a life time.

Now is emphatically the time for the farmers who are in debt to lift the mortgages on their holdings. Wheat has jumped up more than 40 cents since the beginning of the war less than two months ago and the price continues to soar. It may not go to \$1.50 a bushel, but there is a prospect that it will. Unfortunately increased receipts are usually followed by increased expenditure, the feeling of come easy go easy, generally prevailing. If, however, economy without parsimony is observed there is no reason why the American farmer may not soon be rolling in wealth and feeling a little above the less fortunate people who have to come across with the increased price of all farm products.

The Climax would impress upon the farmers to increase their acreage for crops, work them intelligently and be in no haste to market them, and its word for it, they will have money to lend and not a borrower bet. There is little prospect for peace, but if it were to come soon the demand for foodstuffs would continue for some years. Be wise and take advantage of an unusual opportunity now knocking at the door.

### Proof Positive.

The story is told of former President Taft that when he was a small boy his mother made him a new pair of pants. He put them on and went out to play. He soon returned and said to his mother: "Maw, these pants are too tight; they're tighter than my skin!"

"No, Willie, they can't be tighter than your skin," she answered.

"Yes, they are maw; I can sit down in my skin, but I can't sit down in my pants!"

### The Curse of The Crown.

War walks upon your dinner table with both feet. Six weeks of fighting has nearly doubled the price of that lump of sugar for your coffee.

The flour that made your toast for breakfast is worth a half more than it was before Czars, Emperors, Kings and Kaisers indulged in the luxury of slaughtering men.

There is no way to measure exactly how much less daily income all the people of the United States have than they had on August 1, but there has been a decrease. Hence the war makes you pay more for the things you buy, and takes away from the average person a little money with which to do the buying.

It is a whole lot for the human race to pay just to support crowns upon a few heads.

### Rheumatism Pains Stopped

The first application of Sloan's Liniment goes right to the painful part—it penetrates without rubbing—it stops the Rheumatic Pains around the joints and gives relief and comfort. Don't suffer! Get a bottle to-day! It is family medicine for all pains, hurts, bruises, cuts, sore throat, neuralgia and chest pains. Prevents infection. Mr. Chas. H. Guaranteed. 25c. at your Druggist.

### The Part That Can't Be Forgotten.

It is reported that German soldiers, entrusted with the noble work of destroying Louvain, entered a home where two little girls were playing with their dolls. They crushed the dolls and set fire to the house. The world may some day be able to forgive them for burning the beautiful city laying waste its houses and sending the people stunned and staggering into the wilderness, but there will never come a time when it will be able to overlook the unspeakable infamy of the human coyote who would deliberately shatter the joy of a child.—Exchange.

## Important To All Women Readers of This Paper.

Thousands upon thousands of women have kidney or bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer a great deal with pain in the back, bearing-down feeling, headache and loss of ambition.

Poor health makes you nervous, irritable and may be dependent; it makes any one so.

But hundreds of women claim that Dr. Kilmer's Swamp Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

A good kidney medicine, possessing real healing and curative value, should be a blessing to thousands of nervous, over-worked women.

Many send for a sample bottle to see what Swamp-Root, the great Kidney, Liver and Bladder Remedy will do for them. Every reader of this paper, who has not already tried it, by enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., may receive sample size bottle for Parcel Post. You can purchase the regular fifty-cent and one-dollar size bottles at all drug stores.

### Memorial to Mrs. Wilson.

At the Women's Missionary Conference of the Southern Presbyterian Church, held at Montreat, N. C., it was decided to erect a memorial to Mrs. Woodrow Wilson. It is to be known as the "Ellen Wilson Fund for the Christian Education of Mountain Youth." Since her death it has been discovered that Mrs. Wilson was deeply interested in the mission work among the mountain people of Kentucky, Tennessee, Virginia, West Virginia and the Carolinas, and manifested this interest by her generous contributions. She was paying for the education of several mountain children from year to year. Before her illness Mrs. Wilson had begun a movement intended to provide a large number of these children with better educational and religious advantages.

### United States Almost Independent In Mineral Resources.

Probably no other nation in the world so nearly approaches absolute independence in respect to mineral resources as the United States.

A glance at the statistics of mineral imports affords a means of comprehending in a broad way how great and complex is the task of attaining national independence in the mining, metallurgical and chemical industries.

Last year the imports of mineral products, both crude and manufactured, exceeded \$270,000,000. Of this total, probably \$200,000,000 represents raw materials and crude metals, the value of these imports being about 8 per cent. of that of the domestic output. In this list of imports the larger items named in the order of value are unmanufactured copper, precious stones, nitrate of soda, copper ore and matte, nickel, tin, iron ore, pig iron and steel, petroleum products, manganese ores and alloys, platinum, aluminum, pyrite, graphite, stone, potash and magnesite.

This country has an abundant supply of most of these mineral products that are now imported in large amounts, and as to them it can be independent of foreign countries. The only essential minerals of the first rank of which the United States has no known supply at all commensurate with its needs are nitrates, potash salts, tin, nickel and platinum, the list thus comprising two essential mineral fertilizers and three very useful metals.

A household remedy in America for 25 years.—Dr. Thomas' Electric Oil. For cuts, sprains, burns, scalds, bruises. 25c. and 50c. At all drug stores.

### Hard to Believe.

The following is mighty hard to believe, yet the Bardston Standard vouches for it:

"Some excitement was caused in the neighborhood when Henry Grubbs, who lives on Harry Murphy's farm, about six miles from Bloomfield, purchased a horse from some traveler for \$35. He turned the horse loose in his backyard and it walked around to the front, came in the front door, laid down on the bed and died. His nose came just to the edge of the bed and his legs were bent at the knees, giving him a very human appearance. The cause of the horse's death is unknown."

The course of the war in Europe has been hidden with singular completeness from the press and the people of two continents. Directly contradictory reports are given out by the official staff of every nation, and not until days have passed has it been possible to get a even faint idea of the progress of the war.

Monte Fox was in Stanford Friday en route to his home in Danville from Madison county, where he bought 500 cattle, weighing from 1,350 to 1,500 pounds, at \$2.25 to \$2.60 per hundred. He bought 207 head from Harvey and Thos. Chenault and a bunch from Covington, Gay and others. This was one of the biggest cattle deals made in several months. The cattle were exports and were shipped to New York for the market there. —Interior Journal.

## INSTRUCTS AMBASSADORS.

Secretary Bryan Tells Diplomats Abroad How to Conduct Affairs.

Washington.—Secretary Bryan issued instructions to diplomatic and consular officers of the United States who have been entrusted with the interests of the nation now at war.

Few realize the delicate position of this office, the duties suddenly thrust upon them and the consequent amount of labor they are compelled to perform.

United States diplomatic and consular officers are serving the interests of Germany, France, Belgium, Russia, Great Britain, Austria and Japan.

In the instructions sent out by Secretary Bryan the American representatives are cautioned to not overstep the straight line of their duties for fear it would make the neutrality of the United States appear partial. The instructions said, in part: "Bear in mind the general usages of nations in relation to the functions exercised by you on all such occasions."

Further, the instructions added, "The care and protection of the interests of the nations for whom you are acting are based upon the consent of both foreign governments concerned. This consent may be withdrawn at any time by either or both."

Another instruction, "Bear in mind you are the representative of a neutral power whose attitude toward the parties to the conflict is one of impartial amity."

An explanation by state department officials of the instructions showed that, in the main, the attitude of the representatives of the United States acting for the belligerents is that of a vehicle of communication; also to protect the property and natives of the nations for whom they are acting.

In this connection the instructions state that before seeking recourse to the raising of the American flag over the embassy, legation or consulate of the nations for whom they are acting as a means of protecting them strong representations should be made to the government in whose territory the property may be located and that necessity may be avoided.

## WARRING POWERS OWN NEARLY ALL OF AFRICA

### Natural Resources of Possessions Among Richest.

Washington.—The African possessions and protectorates of the European powers now at war are more than three times as large as continental United States. They are more than three times as large as all of Europe now plunged in war and are eleven times larger than England, France, Germany and Belgium, which control them. They occupy 9,697,531 of Africa's 11,513,000 square miles.

"The largest individual holder of African territory is France, with 3,312,000 square miles, more than 1,500,000 of which is the Sahara desert," says the society's statement. "England controls 3,618,245 square miles, Belgium, with Belgian Congo as its sole possession, 802,000 square miles, and Germany 1,035,086 square miles. These figures make surprising contrasts with those of the European holdings of these countries. European France consists of 207,054 square miles; England, 121,391 square miles; Belgium, 11,373 square miles; Germany, 208,789 square miles.

"England leads in the population of her African dependencies, with a total of 40,458,500 inhabitants, more than 2,000,000 of whom are Europeans. The bulk of her white population is in the Union of South Africa, which consists of Good Hope, Natal, the Transvaal and Orange River Colony and in which dwell nearly 1,500,000 'foreigners.' There are approximately 40,000 people living in French African possessions, more than 1,000,000 of whom are white. The center of France's white population is Algeria, where nearly 800,000 Europeans and 5,000,000 natives live. There are 15,000 people in Belgian Congo, 5,463 of whom are white, and 12,265,500 German subjects in her dependencies, of whom nearly 20,000 are Europeans. Thirteen thousand of these live in German Southwest Africa.

"The natural resources of many of these African possessions are among the richest in the world. The Union of South Africa, under British control, exported in 1910 \$154,503,000 in gold and \$40,199,000 in diamonds. The imports and exports of Algeria, a French possession, exceeded \$233,000,000 in 1912. Belgian Congo's exports now pass the \$15,000,000 mark annually. While Germany's colonies are sending to other countries about \$25,000,000 worth of produce annually."

### LIGHTNING SKINS A MAN.

Bolt Passes Down His Back, Paralyzing Him.

Orlando, Fla.—The narrow escape from death by lightning of Charles Nystrom, a former Scandia (Kan.) citizen, is miraculous. Striking him on the back between the shoulders, the bolt passed down his back and legs, partially paralyzing him from the waist down.

He was literally skinned alive, and his outer skin was burned to a crisp. At last accounts he was regaining the use of his limbs in spite of his terrible experience, but it is thought he cannot recover.

### DAIRY COW RECORDS.

Scales and Babcock Test Essentials in Determining Profit and Loss. [Prepared by dairy division, United States department of agriculture.]

The condition of the farming industry as seen on the average farm points to the need of better business methods and more definite knowledge of the sources of profit and loss. In no department connected with the farm is there more need for absolute data than in the dairy. The records of both progressive and unprogressive dairymen indicate that there is no business which shows a greater range of profit than that of dairy farming.

Records of the performances of dairy cows form the only accurate and safe basis for judging their value. It is the constant aim of progressive dairymen to improve their herds, and such improvement must depend largely upon culling the herd and getting rid of the unprofitable animals.

A record is also of great help to the feeder. If he knows exactly what a cow is doing he can prepare the ration

Brown Swiss cattle in their native land are of light or dark brown color, a mouse brown being popular. They are large, heavy headed, thick of neck and heavy of bone. The thickness of neck, however, is relative, and one will see many cows with very neat necks and heads. If one could judge by external appearances he might think that tuberculosis was unknown among these cattle. Their healthy condition, large heart girth and big middles surely indicate healthy interior anatomy. The Brown Swiss in this country have developed good milking qualities. The picture shows a Brown Swiss bull.

accordingly and often feed more economically. Again, a daily milk record enables a dairyman to detect the approach of sickness in a cow and thus to take steps to ward it off.

The record of the herd is a matter of the utmost importance. The highest degree of success cannot be attained unless dairymen know the productive capacity of each individual cow. This is necessary as a guide to rational treatment and to insure the greatest profit. The record should include not only the dairy performance, but a concise history and description of each animal. The former requires a daily record of the milk yield of every cow and a fat test of several consecutive milkings, if accurate records are to be secured. Samples for this test may be mixed and this "composite sample" tested, thus obtaining the average. The method is easily learned and practiced. With the percentage of fat taken periodically and a summary of the daily yield of milk, the dairyman has a full record of production for every cow in his herd. To give still more complete knowledge there should also be a record, at least approximately accurate, showing the cost of the feed consumed by each cow, so that the economy of production may be shown.

The scales and the Babcock test are essential requisites for every true dairyman. One dairyman's cows may produce twice the yield and return double the profit of those of another with the same market, simply because he used greater intelligence in his business.

Accurate and continuous records are necessary for best results. Examples show the impracticability of trying to determine the profitable cows by mere guesswork. One dairyman found the cow he had picked out for best to be fifth on his merit list when actual records were taken.

The time and expense required in keeping records are small compared with their value. In some instances one minute to a cow at each milking, or two minutes a day, has been found sufficient to record the weight of the milk and take the sample. On this basis when milk is weighed and tested every seventh week, as is customary with some dairymen, only one hour and thirty-eight minutes would be required yearly for each cow tested. With this amount of time expended a reasonably accurate record can be secured of every cow in the herd.

The Cost of Silage. A field of corn that will yield from fifty to sixty bushels to the acre will make anywhere from eight to ten tons of silage per acre as it comes from the silo. A silo sixteen feet in diameter and thirty-two feet high will hold about 130 tons of silage. This would take about fifteen acres of corn to fill. Can you imagine any other way of getting 130 tons of green, succulent feed at such a small outlay of expense? Of course there is the expense of putting up the silo, which must be taken into consideration, but many of our practical and experienced feeders figure that the saving by virtue of the silo is about \$1.50 per ton, or, in other words, practically enough to pay in a single season the cost of constructing the silo in many instances.—Hoard's Dairyman.

## Kentuckian Escapes Operation By Using Mayr Stomach Remedy.

Mr. Burnett Says Wonderful  
Treatment Saved His  
Life With Few  
Doses.

Horace Burnett of Somerset, Ky., was a sufferer from stomach disorders for a long time. His condition became highly serious and he feared an operation.

He took Mayr's Wonderful Stomach Remedy and got swift results. In a letter telling his experience he wrote: "Your treatment has certainly helped me wonderfully. I took my fifth dose last night and it brought good results. I have one more dose to take and I think I will be well. Your tonic is wonderful. I can eat anything now that I want to. I can never get through thanking you for your medicine, for I know it saved my life, for I have tried all the doctors and they said I would have to be operated on."

Such letters come from all parts of the country. This remedy is known everywhere for its remarkable results. Mayr's Wonderful Stomach Remedy clears the digestive tract of mucoid accretions and poisonous matter. It brings swift relief to sufferers from ailments of the stomach, liver and bowels. Many declare it has saved them from dangerous operations and many are sure it has saved their lives. Because of the remarkable use of this remedy there are many imitators, so be cautious. Be sure it's MAYR'S. Go to Perry's Drug Store and ask about the wonderful results it has been accomplishing in cases they know about—or send to Geo. H. Mayr, Mfg. Chemist, 154-56 Whiting St., Chicago, Ill., for free book on stomach ailments and many grateful letters from people who have been restored. Any druggist can tell you its wonderful results.

## The KITCHEN CUPBOARD

A HINT FROM ITALY.

DINNER MENU.  
Cream of Celery Soup.  
Potato Puff.  
String Bean Salad.  
Mutton with Macaroni.  
Compote of Apples.

THE Italians cook macaroni with meat, an innovation to the average American housewife. One way of using it is suggested here. Potato Puff—Take boiled potatoes and press through a masher. To each cupful of the potatoes take a tablespoonful of butter, one-fourth of a cupful of milk and the beaten yolk of one egg. Season with salt and pepper, mix well and fold in the beaten white of the egg. Bake in individual dishes.

Served With French Dressing.  
String Bean Salad.—Take a quarter of a peck of string beans, wash and string them, split the long way and put on in boiling water and boil until tender. Drain and blanch with cold water and put in cold place. Marinate a cupful of finely cut onion with two tablespoonfuls of olive oil. If the family likes raw onion mix with the beans, but if not spread over one-half or three-fourths of the beans. Line the salad bowl with lettuce, place on the beans and sprinkle with a teaspoonful of salt and a little pepper; then spread on the onion over one-half or three-fourths; cover with French dressing.

With Cold Mutton.  
Mutton With Macaroni.—Cut some slices of cold mutton about half an inch thick, wrap them each in a piece of white paper well buttered and grill them over a clear fire. Then remove the papers as quickly as possible and place the meat in the center of a hot dish, arranging all round it some macaroni prepared as follows: Chop up finely half an onion and fry it a golden color in an ounce of butter; then add half a teaspoonful of stock and double that quantity of tomato pulp or conserve, with pepper and salt to taste. Bring to boiling point and add half a pound of small pipe macaroni which has just been cooked in fast boiling salted water and well drained on a sieve. Stir all gently together over the fire.

A Simple Sweet.  
Compote of Apples.—Cut in halves as many apples as will be required, remove the cores and in the holes put a little mince meat or preserve. Sprinkle a clean baking pan with sugar, lay the halves of apples in, sprinkle over a very little powdered cinnamon and grated lemon peel and some more sugar. Then let them stew until they are sufficiently done and serve very hot. The sugar should be brown and turned to caramel.

## The KITCHEN CUPBOARD

HOW TO MAKE KETCHUP.

KETCHUPS are probably the most popular of all table sauces. They may be made with tomatoes, walnuts, mushrooms and some fruits. Good ways of making ketchups are suggested here:

Fruit Ketchup.—Wash and stew five pounds of grapes over a slow fire until soft. Strain through a sieve and add two and a half pounds of sugar, one tablespoonful of cinnamon, one tablespoonful of allspice, one-half to one tablespoonful of cloves, one tablespoonful of pepper, one-half tablespoonful of salt and one pint of vinegar. Boil until a little thick and bottle.  
Cucumber Ketchup.—To one quart of peeled, seeded and grated cucumbers allow two green peppers, seeded and chopped; one grated onion, one gill grated horseradish, two tablespoonfuls of salt. Put over the fire and simmer an hour. Add one pint of vinegar, bottle and seal.

A Combination Sauce.  
Mixed Ketchup.—Take one-half peck of finely cut ripe tomatoes, one teaspoonful of minced onions, one teaspoonful of chopped nasturtium seeds, one teaspoonful of grated horseradish, two finely chopped red peppers, three large stalks of chopped celery, one teaspoonful of mustard seed, one-half teaspoonful of salt, one large tablespoonful each of black pepper, cloves, mace and cinnamon, one-half cupful of sugar, one quart of vinegar. This requires no cooking.

Made With Tomatoes.  
Red Ketchup.—Take one peck ripe tomatoes, cooked and strained; one pint vinegar, one and one-half cupfuls sugar. Put in a cloth two tablespoonfuls of cloves, two tablespoonfuls allspice, two tablespoonfuls salt, four tablespoonfuls cinnamon, one-quarter teaspoonful cayenne pepper. Cook to desired consistency.

Sweet Ketchup.—Take four pounds tomatoes. After they are peeled put on and cook out some of the water. Add one pound of sugar, one pint of vinegar, one tablespoonful salt, one tablespoonful each of cinnamon and cloves. Put spices in a bag and boil with the ketchup and a little red pepper. Put in the vinegar just before it is done.

## DAIRY WISDOM.

Keeping two cows to do the work of one constitutes the biggest leak in the dairy business. Empty churn as soon as churning is done; scald and set in sun if it be a stone churn; if wooden put where air can blow freely through all parts of it.

To thoroughly clean milk utensils they first should be rinsed with cold water to remove all particles of milk.

Do not allow the cows to dry up during the latter part of the summer, as this necessitates keeping them through winter, giving a smaller flow of milk than they should.

A good pasture makes a bringing milk pail, and also makes possible good winter pasture.

The first cold rains are hard on the cows, and they should be kept in the barn in such weather.

## THE PRODUCTION OF CLEAN, SAFE MILK

[Prepared by dairy division, United States department of agriculture.]

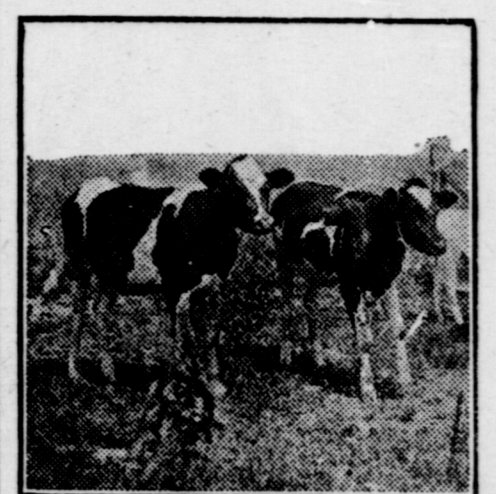

Persons engaged in the production of milk and consumers interested in procuring clean, safe milk will be interested in the factors for producing the same as outlined by the United States department of agriculture in a recent farmers' bulletin (No. 602), entitled "Production of Clean Milk." The essential factors are outlined as follows:

Clean, healthy cows kept in clean, light, well ventilated stables.  
Stables so constructed as to be easily cleaned.

A clean, well drained barnyard.  
Clean utensils, thoroughly sterilized.  
Clean, healthy milkers that milk with dry hands.

A small top milking pail.  
Immediate cooling of the milk to 50 degrees F. or lower.  
Storage of milk at a low temperature until delivered.

A separate house for handling the milk.  
An abundant supply of pure water.  
Bacteria, according to the bulletin, find their way into the milk from various sources. Some may come from the udder itself, where they grow in the milk clusters and ducts. The greater number, however, come from the dust of the air, the dirt from the udder and flanks, from the milker and from unclean utensils. Disease-producing bacteria may get into the milk from cows having such diseases as tuberculosis or from people who handle the milk who may themselves have contagious diseases or who have been taking care of

Breeding too young undoubtedly results in small cows. It is impossible for a young cow to digest and assimilate a sufficient amount of feed to produce milk and grow at the same time. The production of milk, on account of its relation to reproduction, is a dominant function and will not be materially checked to allow growth to continue. The illustration shows young dairy cattle on the United States government farm at Beltsville, Md.

patients afflicted with such diseases as typhoid fever, diphtheria and septic sore throat.

Cleanliness is not an absolute safeguard against disease, but it is the greatest factor in preventing contamination. From the health standpoint there is great danger not only from the specific disease-producing bacteria previously mentioned, but from milk that contains large numbers of miscellaneous bacteria which may cause serious digestive troubles, especially in infants and invalids whose diet consists chiefly of milk. There is also the minor consideration of the loss to the consumer from milk souring or other waste spoiling before it can be used. The cleaner the milk the longer it will keep good and sweet.

Clean milk not only benefits the consumer, but the milk producer who will consider this subject from an unbiased standpoint will find many ways in which he himself is benefited by producing clean milk. There are a number of items in this connection which, when considered alone, may seem unimportant, yet collectively they are of great importance. Moreover, they are not only of immediate value, but have a cumulative value reaching far into the future. Tuberculin testing, for example, is not only a safeguard to the purity of the milk supply for the consumer, but is a means of assisting the producer to protect his herd against future ravages of tuberculosis.

Succulent Feed For Cows.  
The days of short pastures, flies and extreme heat should always be a time when the dairy cows should be given special attention and when their ration should be supplemented by green field corn, or sweet corn. If they are kept in the barn during the heat of the day and let out at night to graze the return in milk will more than pay for the trouble.

Po-Do-Lax Banishes Pimples  
Bad Blood, Pimples, Headaches, Bile, Biliousness, Torpid Liver, Constipation, etc. come from indigestion. Take Po-Do-Lax, and you won't suffer from a deranged stomach or other troubles. It will tone up the Liver and purify the blood. Use it regularly and you will stay well, have clear complexion and steady nerves. Get a 50c. bottle to-day. Money back if not satisfied. ## THE STOCK RAISER.

With the fall letting up of work let up on the heavy feed. Like men, the horses doing little work should eat little.

Mares nursing foals should be given a ration that will not only increase their flow of milk, but will also enrich it.

Corn is no doubt the best feed there is for hogs, but its full value can only be realized when it is used in conjunction with other feeds.

A hog fed on corn alone from the time it is weaned from the sow until butchered at eighteen months old seldom pays for its keep.

Many shepherds report as good results from feeding silage to sheep as are reported by dairy-men and beef cattle feeders.

Sheep in the summer are gross feeders, rapidly cleaning the land of brush and weeds, but in the barn and in the feed lot they are extremely dainty in their eating.

## SILAGE A GOOD FEED FOR EWES AND LAMBS

[Prepared by United States department of agriculture.]

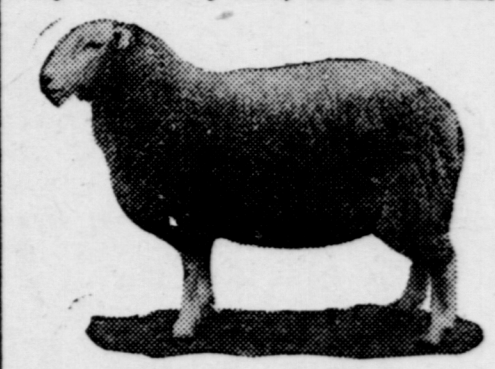

The use of corn silage as a feed for sheep has attracted the attention of most farmers only during the past few years. Although a few shepherds fed silage many years ago with good results, most flockmasters have been slow in giving it a trial.

Owing to the wonderful increase in the use of silos on farms and owing to the cheapness of silage as compared with other succulent feeds, such as roots, farmers are constantly raising the question regarding the feeding of silage to sheep. A great deal has been said of its bad effects upon sheep, but these have arisen either because an inferior quality of silage was fed or on account of carelessness on the part of the feeder in not feeding it properly.

A good quality of silage is extremely palatable and can be fed to all classes of sheep with good results. It must be borne in mind, however, that silage which is either very sour, moldy or frozen should not be fed.

The amount of silage reported in feeding trials varies from one to five pounds per head per day. The amount to feed depends upon the class of sheep and the character of the other feeds comprising the ration. As a general rule from two to four pounds per head per day is considered as much as should be fed.

Lamb feeders have found silage a very satisfactory feed, and the amount

The Cheviot has proved a valuable sheep on American farms and makes a good cross on native stock. The ewes are fine milkers and good mothers, losing few lambs. The wool is moderately long, straight and free from short hair and covers well all parts of the body. When crossed on native stock the offspring show a marked increase in mutton quality and wool production. The fleece of the Cheviot ewes weighs six to eight pounds.

fed ranges from one to three pounds per day. Where lambs are on full feed of grain, such as corn, and are receiving a fair allowance of hay they will as a rule only consume from one to two pounds per head per day.

In feeding breeding ewes before lambing a daily allowance of from two to three pounds should be considered a maximum quantity. After lambing the amount can be slightly increased.

In feeding silage or any other succulent feeds it must be borne in mind that the value of such feeds to a large extent is to act as an appetizer and to keep the digestive system in good condition. Under ordinary conditions where silage is fed it should not constitute more than one-half of the entire ration and it should be fed with other feeds that will properly balance the ration for the purpose intended.

**Horsely Repellent.**

According to Professor F. L. Washburn, state entomologist of Minnesota, a very effective horsely repellent may be made by mixing one-half pint of kerosene with one pound of rancid lard. If rancid lard is not handy fish oil will do, using three parts to one of kerosene. In either case the mixture should be applied with a rag or the hand and rubbed in. The repellent is also good to keep flies from cattle. Care should be exercised, however, not to apply enough to remove the hair.

**Remedy For Red Water In Cows.**

Acrid matter in the pasture is the common cause of such condition of the urine, says Hoard's Dairymen. Keep cows off grass for the time being and give small doses of powdered alum in feed or drinking water twice daily. Start with a teaspoonful dose and increase as found necessary. If it does not prove speedily effective, give a dram of red sulphate of iron twice daily, but this medicine is scarcely safe for a pregnant cow.

### 12—RECEIVERS OFF THE HOOK

You'd be surprised to know how many telephone receivers are left off the hook every day, not only in residences, but in business offices. Sometimes it is done through carelessness and often by accident.

An extension desk set located on a table or desk is apt to be moved into such a position that the receiver rests on a book or is displaced in some equally simple manner. In homes, children and servants are most frequently responsible for this trouble.

When a receiver is left off the hook and the operator is unable to attract the attention of the sub-

scriber, the "howler" is connected and produces a loud noise. If this fails to cause the subscriber to replace the receiver, the telephone is out of order until an employee can reach the place and put the receiver on the hook.

When your receiver is off the hook no one can call you. The result is annoying to you, to those who wish to telephone you, who are told your telephone is "out of order," and to us.

So, you see, it is rather important to all of us that the receiver remain in place when the telephone is not in use.

And while millions are preparing to visit the vast Exposition, which opens on Feb. 20, 1915, preparations for the Exposition itself are far advanced, and it has attained a stage of development unequalled by any universal celebration in the history of the world. The vast exhibit palaces are completed, and the installation of the world's marvels has begun. This unparalleled progress is not confined to the huge exhibit section, for the state and foreign sites and the great concession area, "the Zone," are being crowned by completed structures that leave no doubt as to the preparation made for this magnificent Exposition.

The coming Exposition offers greater spectacles, greater beauty, wider education and more captivating entertainment than any predecessor, and instead of following precedents it has shattered them at every turn and has adopted improvements on old plans that will make it a typical and really modern Exposition.

Thirty-six foreign nations are participating, and the amounts appropriated run from the hundreds of thousands to the \$1,500,000 of China and the \$1,300,000 of Argentina. The states have not lagged in accepting the invitation to have their part in the glory of celebrating the completion of the Panama canal, and thirty-nine will be represented if the list remains as it stands. New York tops this list with \$1,000,000.

Contests will be offered such as have been seen in no other great assembly of humanity, and a few of the many that are drawing the visitors are: The around the world aeroplane race for \$300,000 in prizes, the New York to San Francisco motorboat race for \$10,000, two harness horse racing meets for \$227,000 in purses, yachting events for cups offered by King George V. of England and President Woodrow Wilson, the first world's polo tournament, a world's series baseball game and championships in every line of athletic sports.

No phase of the Exposition is being neglected, and the railroads are doing their part by giving unprecedented rates with a limit of ninety days and every opportunity to see the wonders of the United States by special routing and side trips.

### Tax Figures.

The total equalized value of taxable property of all kinds in Kentucky as shown by the report of the State Board of Equalization for 1914 is \$864,273,838, producing a revenue to the Commonwealth of \$4,221,369.21, on a levy of 50 cents on the \$100, to which will be added next year a 5-cent tax for road building. In 1913 the equalized value was \$852,171,295, producing a revenue of \$4,260,856.02. The total for 1914 includes the assessment of 23,318,977 acres of land, valued at \$355,285,669 and personally aggregating \$83,931,770, not subject to equalization.

### FOLEY KIDNEY PILLS FOR BACKACHE KIDNEYS AND BLADDER

State Sunday School Convention.

The Forty-ninth State Convention of the Kentucky Sunday School Association will meet in Lexington, October 20-23. A splendid program is being arranged. There will be some of the best speakers in the Sunday school work, music by a great choir, conference on all departments of Sunday school activities. There are about four thousand Sunday schools in Kentucky and every one of them is entitled to send delegates. No money can be better spent than by coming to such a gathering and meeting the people who are doing the best things for the uplift of Kentucky. Lexington is near the center of the State and is easily reached and, outside of the convention, has many attractions for visitors. Any one who is interested in making a greater and better Kentucky can become a delegate. For particulars write to the Kentucky Sunday School Association, 712 Louisville Trust Bldg., Louisville, Ky.

A Democratic revolt is threatened, it is stated, in an effort to break down the War Tax Bill, for which Majority Leader Underwood and President Wilson stand sponsors. Opposition has developed to the proposed tax on freight, and Prohibitionists are insisting that whisky be taxed.

### Splendid Medicine. Stomach Trouble

I Suffered for Several Years  
Peruna Restored My Health

Mrs. Elizabeth Reuther, No. 508 Twelfth St., N. W., Washington, D. C., writes: "I am pleased to endorse Peruna as a splendid medicine for catarrh and stomach trouble, from which I suffered for several years. I took it for several months and at the end of that time found my health was restored and have felt splendidly ever since. I now take it when I contract a cold and it soon rids the system of any catarrhal tendencies."

Over Ten Years Ago.

"I would not be without Peruna. Although it was over ten years ago that I first gave you my testimonial, I am of the same opinion as when I wrote it, and give you the privilege to use it as you see fit. I still use Peruna when I think it necessary. I am recommending it to my neighbors whenever a chance occurs."

### Tired, Weak and Nervous.

Why Are Many Richmond People In This Condition?

Feel tired out; irritable and depressed? Urine irregular; back weak and painful? These are symptoms that suggest kidney trouble. When the kidneys call for help, assist them with a tested kidney remedy. Give them the help they need. No remedy more highly recommended than Doan's Kidney Pills.

Backed by home testimony. Endorsed by Richmond people. Mrs. J. H. Young, 422 North Third street, Richmond, Ky., says: "I had dizzy headaches and often felt nervous. The action of my kidneys was irregular and I suffered from backache. Doan's Kidney Pills, procured at Middleton's Drug Store, made me better in every way."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Young had. Foster-Milburn Co., Proprietors, Buffalo, New York.

Did You Ever Think? Did you ever think as a horse passed by that it would not be long until you or I would be taking a ride in that black-plumed hack, and never remember the coming back?

Did you ever think as you strive for gold that a dead man's hand can't a dollar hold? No matter how much you earn or save. You must leave it all when you go to the grave.

The Lexington Trots. On Monday, October 5, the Great Fall Trots open at Lexington and continue ten days. The high standard of the Kentucky Grand Circuit Meeting will be more than maintained in every detail. The card contains thirty-eight races. The program aggregates \$85,000. The races run in value from \$1,000 to \$14,000.

On Monday the eighteenth renewal of the Walnut Hall Cup, for 2:12 trotters June 1, will be contested. It is second in interest only to the Transylvania. On Tuesday, the 6th, the twenty-second 3-year-old Kentucky Futurity will be raced. It will be the fastest race ever witnessed between 3-year old colts and, perhaps, between trotters of any age.

On Wednesday the big Free-for-all Pace will be the star attraction. In this race and also in the Kentucky Futurity, world's records will be made. In the great classic, the Transylvania, carded for Thursday, the 8th, the biggest, fastest and most evenly matched field that ever came to the post in this historic race will be seen.

These are but a few of the star events on the program. Special round trip rate of one fare plus 25 cents from Kentucky points has been secured.

HERBINE is the medicine that cures biliousness, malaria and constipation. The first dose makes you feel better, a few additional doses cures completely. Price 50c. Sold by Wines' Drug Store.

### May Run For Auditor.

Col. Woodson May, of Somerset, Democratic State Central Committee member from the Eleventh congressional district, who was in Louisville the other day attending the meeting of the State Central and Executive Committees, said that while he was not ready to make a formal announcement for State Auditor, he was seriously considering making the race, and was receiving much encouragement from various sections of the State. Colonel May has been a recognized party leader in the Eleventh district for many years, and is also well known in other sections of the State. He is editor of the Somerset Journal, one of the papers in the State, and is also a member of the Executive Committee of the Kentucky Press Association. His entry into a State race would add considerable zest to the contest. Colonel May is a native of Perryville, Boyle county.—Louisville Times.

### RHEUMA ENDORSED

Recognized as a Standard Remedy For All Forms of Rheumatism.

Restores Kidneys, Blood, Bowels and Skin to Healthy Condition.

B. L. Middleton, or any druggist, who has sold Rheuma for years will tell you that this great remedy for rheumatism has no superior. His knowledge is gained from testimony of customers to whom he has sold Rheuma. If you suffer from some form of the disease try a bottle. It costs only 50 cents, but its use will convince you that it will quickly and permanently benefit you.

Rheuma starts with the first dose to clean your system of all poison; builds up your shattered strength; infuses fresh blood into your veins, and quickly restores the kidneys, bowels blood and skin to healthy, normal condition. It rapidly brings the swollen joints down to normal, for the uric acid will have been driven out.

That is the Rheuma way of treating rheumatism. Your money returned if it fails. 6-2t.

### European War a Benefit To United States.

"There is not an acre of land in Kentucky that won't double in value in the next five years, due mostly to the European war," was the highly optimistic remark of Dr. Fred Mutchler, State agent of farm demonstration work, to a group of men at the Board of Trade rooms in the City National Bank building. In Dr. Mutchler's opinion the European war has given the American farmer the greatest opportunity of his life. He says that the farmers of this country will be called upon to feed the world for the next three years, and the thinking ones who realize and grasp the great opportunity, are going to gather in the benefits. "I have a 253-acre farm in Warren county, on which I expect to make \$25,000 in the next three years," he said. "I am going to make it off of live stock. There is no money in cropping; you have to feed it to get all out of the land that is possible."

Dizzy? Bilious? Constipated? Dr. King's New Life Pills will cure you, cause a healthy flow of bile and rid your stomach and bowels of waste and fermenting body poisons. They are a tonic to your stomach and liver and tone the general system. First dose will cure you of that depressed, dizzy, bilious and constipated condition. 25c. all Druggists.

### Once Famous Beauty Died.

Mrs. Mary Shreve Ransom, 75 years of age, noted society belle of ante-bellum days, and often styled "the most beautiful woman in the South," died in Louisville last week. Mrs. Ransom was the widow of Gen. H. P. Ransom, of Civil War fame. She is survived by four children, a brother and two sisters.

### Things We've Noticed.

The most wonderful thing—An individual opinion.

The easiest thing—Blaming it on the other fellow.

The hardest thing—Proving it.

The softest thing—The other fellow's job.

The wisest thing—To mind your own business.

The most foolish thing—What we said when we tried to appear bright.

The very sweetest thing—We married her.

The wettest thing—A woman's hat with three drops of rain on it.

The driest thing—The speech that our rival made.

The kindest thing—Not to mention it.

The most awkward thing—The knife at dinner.

The handiest thing—An alibi.

### What Gen. Sherman Said.

Perhaps no saying of a modern man is in more general use now than that attributed to Gen. William Tecumseh Sherman, who led the famous "march to the sea." Here are his exact words about war:

"I am tired and sick of war. Its glory is all moonshine. It is only those who have neither fired a shot nor heard the shrieks and groans of the wounded who cry aloud for more blood, more destruction, more vengeance. War is hell!"

### Cost Kept Down—Quality Kept Up.

No better medicine could be made for coughs, colds, croup, hoarseness, tickling throat, bronchitis, etc., than Foley's Honey and Tar Compound. That's why it can't improve the quality, and war or no war, the price remains the same. E. J. Sargent, Dallas, Tex., says: "I believe Foley's Honey and Tar has no equal for it completely relieved me of all symptoms of tuberculosis and my cough has entirely disappeared." Don't accept any substitute, for Foley's Honey and Tar is the best. For sale by all dealers everywhere adv.

### Same With Us!

One of our subscribers in North Dakota sends us the following clipping from his local paper:

"It is reported that one of the fastidious newly-married ladies of this town kneads bread with her gloves on. This incident may be peculiar, but there others and I am one of them."

"The editor of this paper needs bread with shoes on; needs bread with his shirt on; needs bread with his pants on; and unless some of his delinquent subscribers pony up before long, he will need bread without a d—n thing on—and North Dakota is no Garden of Eden in the winter time."

And we hasten to add neither is Kentucky.

### A TEXAS WONDER.

The Texas Wonder cures kidney and bladder troubles, dissolves gravel, cures diabetes, weak and lame backs, rheumatism, and all irregularities of the kidneys and bladder in both men and women. Regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of \$1.00. One small bottle is two months' treatment, and seldom fails to perfect a cure. ## Buyers To Share In Profits Lower Prices On Ford Cars

Effective from August 1, 1914, to August 1, 1915, and guaranteed against any reduction during that time:

Touring Car	-	-	\$490
Runabout	-	-	440
Town Car	-	-	690

F. O. B. Detroit, all cars fully equipped.  
(In the United States of America only)

Further, we will be able to obtain the maximum efficiency in our factory production, and the minimum cost in our purchasing and sales departments if we can reach an output of 300,000 cars between the above dates.

And should we reach this production, we agree to pay as the buyer's share from \$40 to \$60 per car (on or about August 1, 1915) to every retail buyer who purchases a new Ford car between August 1, 1914, and August 1, 1915.

### Asthma and Hay Fever A Guaranteed Relief

"I have arranged with HENRY L. PERRY, Richmond, Ky., so that every sufferer from Asthma, Hay Fever or Bronchial Asthma in Richmond can try my treatment entirely at my risk." Dr. Rudolph Schiffman announces. He says: "Buy a 50-cent package of my Asthmador, try it, and if it does not afford you immediate relief, or if you do not find it the best remedy you have ever used, take it back to Henry L. Perry and he will refund your money cheerfully and without any question whatever. After seeing the grateful relief it has afforded in hundreds of cases, which had been considered incurable, and which had been given up in despair, I know what it will do. I am so sure that it will do the same with others that I am not afraid to guarantee it will relieve instantaneously. The druggists handling Asthmador will return your money if you say so. You are to be the sole judge and under this positive guarantee, absolutely no risk is run in buying Asthmador."

Persons living elsewhere will be supplied under the same guarantee by their local druggist or direct by Dr. R. Schiffmann, St. Paul, Minn. 3-8t.

### President Wilson's Proclamation.

President Wilson, Tuesday last, issued a proclamation calling on the people of the United States to pray for peace in Europe.

He sets aside Sunday, October 4, as a day of prayer.

The proclamation is as follows: "By the President of the United States of America:

"Whereas, great nations of the world have taken up arms against one another, and war now draws millions of them into battle whom the counsel of states-

men have not been able to save from the terrible sacrifice;

"And, whereas, in this as in all things, it is our privilege and duty to seek counsel and succor of Almighty God, humbling ourselves before Him, confessing our weakness and our lack of any wisdom equal to these things;

"And, whereas, it is the especial wish and longing of the people of the United States, in prayer, in counsel, and all friendliness to serve the cause of peace,

"Therefore, I, Woodrow Wilson, President of the United States of America, do designate Sunday, the 4th day of October next, a day of prayer and supplication, and do request all God-fearing persons to repair on that day to their places of worship, there to unite their petitions to Almighty God, that overruling the counsel of men, setting straight the things they cannot govern or alter, taking pity on the nations now in the throes of conflict, in His mercy and goodness, showing a way where man can see none, He vouchsafe His children healing peace again and restore once more that concord among men and nations without which there can be neither happiness nor prosperity."

TERMS—Said land will be sold on a credit of six months time. The purchaser being required to execute a Sale Bond payable to the Commissioner, bearing 6 per cent interest from day of sale until paid with approved security, with lien retained on the property until all the purchase money is paid. Purchaser may pay cash if he elects.

### HOW TO GET STRENGTH

after any sickness is purely a matter of nourishment, whether the attack was an ordinary cold or severe illness; the weakened forces cannot repulse disease germs, and this is why a relapse is so often fatal or why chronic weakness often follows sickness.

Restoring strength to millions of people for forty years has proven the real need for taking Scott's Emulsion after any sickness; nothing equals it—nothing compares with it. Its pure, medicinal nourishment, free from alcohol or opiates, promptly creates rich blood, strengthens the nerves and lungs to avert tuberculosis.

**THE** way to smart dress lies not through an extravagant expenditure of money, or a visit scores of stores, or the inspection of hundreds of garments. Quite to the contrary, the smartness and style sought for by most women are achieved by concentrating on one store whose reputation is above reproach, and whose modes, materials and manner type the most advanced ideas. And, how will you recognize this store? Simply look for the STYLE-CRAFT emblem

Style-Craft Suits, Coats and Cape-Coats are styled with that wonderful ingenuity and art possessed by only a few designers. Every garment is man-tailored by experts from a timely fabric—luxuriant, pronounced or restrained, but in perfect harmony with the mode end the moment. Probably there are no tailors outside of the Style-Craft Shops who can achieve

such nicety of curve and contour—such velvety smoothness—such uniform and perfect workmanship, who can so beautifully "bring out" that ultimate degree of style-value coveted by the fashionable woman.

The stylists of Paris, Vienna or New York cannot produce modes as charming as Style-Craft. It has taken months of constant effort—to make it possible an easy for you to wear Style-Craft garments, but the opportunity is now yours.

There are scores of alluring Style-Craft modes in Suits, Coats and Cape-Coats—the "creme de la creme"—for you to glance at in our store. Come in at your convenience.

### Death of Mrs. Edna Yates.

Mrs. Edna Yates, 73 years of age, died at her home in the eastern part of the county, a few miles from Richmond, on Sunday morning, September 20, about 3 o'clock, the immediate cause of her death being heart trouble, from which she had suffered for several months, and at times, for several years. Her husband, Milton Yates, died many years ago. She leaves three sons and one daughter—Mrs. Sallie Yates McKee, Dr. J. M. Yates and Messrs. Brownlee and Wallace Yates. Funeral service was held at the First Christian church, this city, conducted by Rev. E. B. Barnes, Monday afternoon, after which she was buried in Richmond Cemetery. Mrs. Yates had been a member of the Christian church for 25 years or more, and was an excellent christian woman, charitable and kind to the sick and poor, always ready to lend a helping hand to those in need.

### DEATHS

Little Lee Larkin, the four-year-old son of Captain and Mrs. Jesse Larkin, died at their home in this city on Sunday, 20th, of nephritis (kidney trouble). Services were held at 6 o'clock yesterday morning in St. Mark's church and the remains taken to Lexington on the train for burial.

Mrs. J. R. Buckwalter died at her home in Laurel, Miss., Wednesday, September 16, aged 62. She had been in her usual health, was out in the yard and went into the house to take a nap. Upon attempting to arouse her half an hour later, it was found that life had passed away so quietly and peacefully that no one in the house knew it. Funeral services were held at the family residence, after which her remains were laid to rest in her home town. She is survived by her husband, three daughters, Misses Irene and Eleanor, of Laurel, and Mrs. R. O. Lackey, of this city, and by two sons, Dr. J. C., of Canada, and I. A. Buckwalter, of Union, Miss. She had long been a member of the Presbyterian church. Mr. R. O. Lackey and wife attended the funeral and burial. Mr. Lackey has returned, but Mrs. Lackey will remain with her father's family for a short time.

### Advised to Raise Wheat.

Mr. T. S. Hagan, of the Madison Milling Co., Allen Zaring, of the J. W. Zaring & Mill Co., Mr. R. L. Potts, of White's Station, Parks & Son, of this city, Burnam & Rucker, Paint Lick, in fact every flour mill man in the country, who has made a study of the situation, advises the farmers to plant every available acre in wheat this fall. Wheat, they say, is bound to bring a good price, as we shall have to feed Europe until the war is over, and that country recovers from the effect of it.

### R. C. H. Covington Co.

Saturday morning after the collapse of the Masonic Temple building, of which the R. C. H. Covington Company occupied the entire first floor, before the dust and debris had fairly settled, this enterprising firm had secured the Clay building near the postoffice and had begun to move their stock. It was a vast undertaking to move and clean up this large stock, but their faithful employees, every man at his post, with extra help, soon had everything ready for business. Temporary quarters are never so convenient as those especially built for a certain business, but you can be waited upon promptly and are invited to call on them for anything in the clothing or gentlemen's furnishing goods line. See their adv. in this issue.

#### Death of Dr. Blanton.

Dr. L. H. Blanton died in his eighty-fourth year, at his home in Danville, at 5:30 in the afternoon of Thursday, Sept. 17. His remains were laid to rest in the Danville Cemetery, Saturday afternoon, after funeral services in the First Presbyterian church of Danville, services being conducted by Rev. E. M. Green, pastor, Doctor F. W. Hinnitt, of Central University, Rev. J. G. Hunter, of Harrodsburg, and Rev. Harvey Glass, of Somerset. Dr. Blanton was well known here where he resided as Chancellor of Central University from 1880 to the time of its removal to Danville, a period of about 21 years. Dr. Blanton was born in Virginia, but spent the larger part of his life in this State and was for many years a prominent figure in the Presbyterian church, holding many positions of honor and trust. He was twice married, his first wife being Miss Elizabeth Irvine, of Boyle county. Of this union six children were born, five of whom are living as follows: Mrs. E. M. Dickson, of Paris, Mrs. Joe Head, of Ashland, J. Irvine Blanton, of Cynthiana, W. Edgar Blanton and Dr. H. M. Blanton, both of this city. Dr. Blanton's second wife, whom he married in 1904, was Mrs. Myra Bracken, widow of Rev. Dr. Bracken, a prominent Presbyterian minister of this State. She survives him. Mr. and Mrs. E. M. Dickerson, of Paris, Mr. J. Irvine Blanton, of Cynthiana, Dr. and Mrs. H. M. Blanton, Mr. and Mrs. W. E. Blanton and little son, Mrs. Laura Blanton, Mr. and Mrs. Geo. Blanton and Mr. Lindsey Blanton, of this city, and Mr. Jos. S. Head, of Ashland, attended the funeral and burial. Mrs. Head was unable to be present owing to the condition of her health.

#### State Bankers' Association.

#### Called To Brooksville.

Last Friday night about 9 o'clock, Mrs. Long Tom Chenault, of this city, received a long distance telephone message from Brooksville, Ky., apprising her of the death of her uncle, Mr. Wm. Smarr, who died in that city at 8 o'clock of apoplexy. Mrs. Chenault left the following morning on the early train for the home of her dead relative. Deceased was one of the most widely known men in Bracken county, and every person who knew him was his friend, for "Billy" Smarr, as he was known to all, was a true friend and good neighbor and a gentleman of the highest type. His demise is a distinct loss to a large circle of relatives and friends, all of whom have the deepest sympathy of everyone.

#### Death of Mr. Amos Willis.

In the death of Mr. Amos B. Willis, Madison county loses one of her oldest and best citizens. Mr. Willis died at his home on Collins street, Wednesday, September 16. He was in his ninety-first year. Suffering from infirmities of age he had been an invalid for several years, and had been confined to his room and for the most part to his bed for something over three years. Mr. Willis was an excellent citizen and a successful farmer, but for several years had made his home with his sister, Mrs. March, in this city. He had been for many years a consistent member of the Christian church, with membership in the Pond church. After funeral services at his residence on Collins street, Friday afternoon, his remains were borne to their last resting place in Richmond Cemetery, followed by a large number of relatives and friends. He was never married. He leaves two sisters, Mrs. John March and Mrs. Ann Cornelison, and two brothers, Col. Joe B. Willis, of Crab Orchard, and Dr. R. L. Willis, of Lexington, besides a large number of nephews and nieces.

#### Reception to Dr. Horton.

At the Methodist church Wednesday night last, rejoicing over the return of Dr. Horton for another year, a reception was tendered him. The auditorium of the church with members and their friends, music enlivened the occasion and a good time in social enjoyment was had. A nice lunch served by the ladies added to the pleasure of the evening.

### Does It Pay to Feed Wheat to Hogs.

A subscriber says he is often asked if it pays to feed wheat to hogs. After 25 years experience he always says, "yes." In a test a few weeks ago he fed 35 bushels of wheat to 40 hogs that at the beginning weighed 50 pounds each, fed one bushel a day for eight days then 1-1-3 bushels while it lasted. They then weighed 75 pounds, making a gain of 1000 pounds; they were sold at 8c, making \$80 for 35 bushels of wheat that was bought for at 75 cents a bushel—\$26.25. Wheat was fed dry, scattered thin on ground. Hogs had run of good pasture.

#### More Night School Talk.

The Christian Endeavor organization of the Second Christian church had last Sunday night a very full and elevating program. The topic of primary importance, that of self help through education, has been discussed fully in connection with the night school which will open at Caldwell High School, this city, on October 6. Prof. Wren Grinstead and Mrs. Mary Deane, one of the future teachers, discussed this topic in all its phases. This discussion arose from the consideration of the pitiful conditions in Europe as outlined by Mme. Piotrowska in her war talk. The message of peace and education to our own people was the slogan of all Christian people assembled there. The gathering was over 200 strong, enthusiastic, full of energy and love for their church.

#### Death of Amanda Bronston.

Friday morning, September 18, about four o'clock, Amanda Bronston died at her home on Second street, this city. She was about ninety years of age and a familiar figure to a large number of our people, more especially among our past-middle age and elderly citizens. She was born and reared in this county. About forty years of her life was spent in slavery, after which she, by industry, accumulated good property in this city besides supporting and educating a family of six children, all of whom have done well in life and any one of whom was abundantly able and willing to take care of her in her old age. She was too independent and self-reliant to allow that and made her own living up to the day of her death. Her children are: Bebie Little, of this city; George, of Cincinnati; Horace and William, of Chicago; Fanny Postel, of Hopkinsville, and Richard, of Kansas. All of them except Richard, whom they were unable to reach by telegram, came to the burial. George, who was in Buffalo, New York, when he received the news of her death, arrived a few hours after the funeral. After funeral services, conducted by Rev. Broadus, at the First Baptist church, largely attended by both white and colored, relatives and friends, she was buried in the new cemetery in the eastern part of the city.

### ORDINANCE.

Be it ordained, by the Board of Council of the City of Richmond, Ky., that the hereinafter named property-holders—W. P. Williams, Mrs. Thomas Ferrell, W. D. Oldham, Brownlow Hall—located on Walnut street, in Richmond, Ky., be, and the same are hereby ordered, to construct and maintain concrete pavements in front of and abutting upon their property. Said pavement shall be constructed according to specifications on file with the Mayor and which have heretofore been adopted by the Board of Council for the construction of pavements in said city. Upon the failure or refusal of the above property-holders to comply with the provisions of this ordinance within thirty (30) days after its passage and publication, then the City will advertise for and receive bids for the construction of said pavements, and will let out the contract for same, and upon their completion will take such steps as are necessary to enforce the lien upon said property as in such cases is provided for in Section 3566 of the Kentucky Statutes. SAMUEL RICE, Mayor. Attest—W. E. BLANTON, Clerk. July 2, 1914.

### Land, Stock, Crop

There will be more corn raised in the county of Graves this year than at any time in the past 20 years.

In spite of bugs and other things the Cape Cod cranberry crop promises to be better than ever. It is a question whether it will pay to gather half of it. A large apple crop and the high price of sugar will affect the demand.

Farmers in Mercer county report a splendid crop of tobacco, with leaves measuring 23 to 26 inches wide and 40 inches in length. Wonder if Madison can't beat it?

The record price for export cattle was paid at Mt. Sterling last week, when Tibbs & Co., of Indianapolis, bought 70 head from Josh Owings at \$9 per hundred. They were in fine condition and averaged 1,500 pounds. Mr. Tibbs purchased a nice bunch from Dave Fox at \$4.40.

W. A. Sharp shipped 27 head of sheep from L. D. Brewer's flock to Col. Mark Wakefield, of Shelby county, which are said to have been the best bunch that have left this county in years. They brought a fancy price.—Harrodsburg Herald.

J. Lee Murphy sold 17 mules to M.

Lauber, of York, Penn., at \$120 a head. Thos. Metcalfe sold 100 ewes to J. C. Johnson at \$5.50 per head.—Danville Advocate.

Maxwell & Marsh of Tulsa, Ala., purchased a car-load of Shropshire sheep at a fancy price from G. W. Foster, to be used for breeding purposes. They could not be shipped until inspected by Assistant State Live Stock Inspector Dr. H. H. Hobbs, which delayed the shipment several days. Some of these sheep were prize-winners at several county fairs. H. H. Chilton sold his 190-acre farm on the Cornishville pike to Allen Royalty for \$5,000.—Harrodsburg Leader.

Harbison, Jewell & Patterson received an order from the British government for an unlimited number of horses to be delivered as soon as possible. They must weigh 900 to 1,200 pounds and be 5 to 8 years old, for cavalry and artillery service.

The late James B. Haggins, who owned the famous Elmendorf farm in Fayette, made a wonderful record as the owner of race horses and was one of the three American breeders who bred two winners of \$100,000 and over.

A new record price for September cattle was set at Chicago when 17 Iowa corn fed animals, averaging 1,554 lbs., sold at 11c on hoof. Prediction is made that cattle will go to 12c.

### Alfalfa Pays.

In a recent address Hon. A. P. Grout, President of the National Alfalfa Growers Association, stated that one acre of alfalfa is equal to four acres of average corn. He said: "It never occurred to me until three or four months ago to make a comparison and reduce the value of an acre of corn and alfalfa to figures. This season I put at least five tons of alfalfa to the acre in my barn, and it is worth \$20 a ton. After this hay was carefully put into my barn, some of my neighbors began to haul corn to the elevator at 50c per bushel, and then for the first time it occurred to me that if I had sold my alfalfa for \$100 and put that amount into corn, it would have given me 200 bushels. Now, this land on which I am growing alfalfa would be able under the best conditions to grow 90 to 100 bushels, but I am not growing any such amount. If I get 75 bushels per acre, I am doing very well. This means that one acre of alfalfa is worth two and a half acres of corn, and if I did not get more than 50 bushels, (and the average is not 50 bushels in our country), then one acre of alfalfa is equal to four acres of corn. There is an incentive for growing alfalfa.

### Out of Mexico.

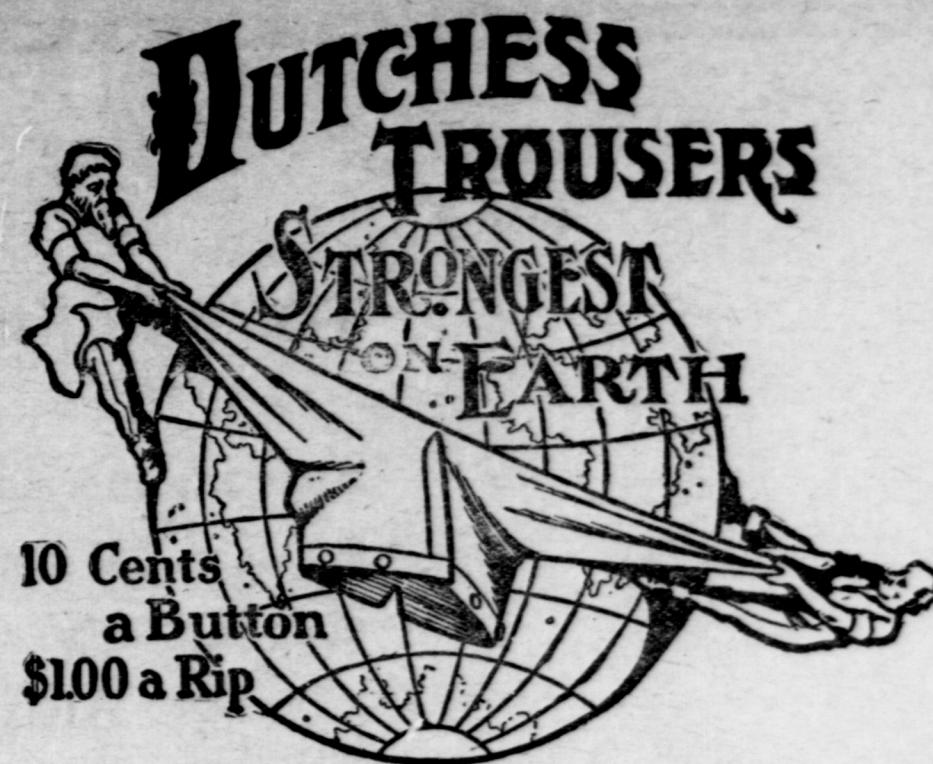

The United States troops have been withdrawn from Mexico, or rather from the one city, Vera Cruz, of which they had possession. And thus history has repeated itself once more. It was in 1848 that the first evacuation of that country took place. Then, as now, it was done by order of a Democratic President. Good results and closer friendship followed the former evacuation and there are many reasons why that should be repeated with emphasis this time. In the former evacuation the local people in this and adjoining counties had a more immediate interest because many of their own fellow citizens had gone to the Mexican war. Several companies had been organized in Kentucky and one from Daviess county. Not all that volunteered could be accepted, because they were not needed, but the one company from Daviess county was in the war. Nearly all the men returned, as there were relatively few fatalities to the Americans. Only a limited number of Kentucky troops ever got to the firing line. Practically all who were killed in the skirmish for the occupation of Vera Cruz in the recent trouble were from the East and the North and Daviess county does not mourn the death of even one son on Mexican soil.—Owensboro Messenger.

**Acute Indigestion.** "I was annoyed for over a year by attacks of acute indigestion, followed by constipation," writes Mrs. M. J. Gallagher, Geneva, New York. "I tried every thing that was recommended to me for this complaint but nothing did me much good until about four months ago I saw Chamberlain's Tablets advertised and procured a bottle of them from our druggist. I soon realized that I had gotten the right thing for they helped me at once. Since taking two boxes of them I can eat heartily without any bad effects." Sold by all dealers. adv

### American Road Congress.

Regarding the public roads as an indispensable part of the transportation system of the country, supplementing its railroads and waterways, President Harrison, of the Southern Railway Co., takes an active interest in the good roads movement. He is Vice-President of the American Highway Association, and will be one of the speakers at the Fourth American Road Congress in Atlanta, November 9.

Speaking of the relation of the country highway to the railroad, Mr. Harrison said: "Whatever may be the final destination of farm products, their first movement must be over the country road and, if the farmer is to receive the largest measure of benefit from good roads, the policy should be adopted of improving those highways which radiate from market towns and shipping stations and over which the farmers must haul their products. The profit which will be earned by the farmer may depend largely upon the condition of the road from his farm to shipping station. Statistics compiled by the U. S. Department of Agriculture show that the cost of hauling farm products to shipping points over bad roads is a disproportionately large part of the total expense of their transportation to market. This is not always fully realized by the farmer, but if he will take into account the time of himself and his team, and the wear and tear on his vehicle and harness made necessary by a larger number of trips with smaller loads, he will find that the cost amounts up very fast and correspondingly reduces his net profits. Another item of the cost of bad roads to the farmer, which is often overlooked, is that he must haul his products to markets when the roads are not in their best condition with little regard as to whether prices are favorable or whether hauling at that time interferes with work on the farm. With good roads he can not only haul heavier loads in shorter time but, except as to perishable commodities, he can market his products when prices are most favorable and can do his hauling when it is most convenient and even when the ground is too wet for work in the fields. "The manifold advantages of an improved highway in reducing the cost of drayage, facilitating social intercourse,

### A Husband's Duty.

A very grave responsibility has the man assumed in his marriage. Doting parents have confided to his care the welfare of a loved daughter, and a trusting woman has risked all her future happiness in his keeping. Largely will it depend upon him whether her pathway will be strewn with thorns or roses.

Let your wife fully understand your business. In nearly every case she will be found a most valuable adviser when she understands all your circumstances. If a dispute arises dismiss the subject with a kind word and do not seek to carry your point by discussion. It is a glorious achievement to master one's own temper. You may discover that you are in error, and if your wife is wrong she will gladly, in her cooler moments, acknowledge the fault.

Never neglect your wife for all the world besides. Never deceive; confidence once lost can never be wholly regained. Never give all your pleasant words and smiles to strangers—the kindest words and the sweetest smiles should be reserved for home. Home should be your heaven.

Never fail to tell your wife the truth; if truthful you get your reward—you get your punishment if you deceive. Never fail to say a kind, encouraging word to your wife; praise and encourage her. To keep her love, be kind and loving—always be a lover.

And last and above all, to keep your wife's love and respect, be a strictly temperate man. It would be difficult to love and honor a man to whom she is compelled to look down upon, who would drag himself, wife and children down to poverty, shame and disgrace. One and all turn from the intoxicating cup. That alone makes more misery, causes more unhappy homes and is the greatest curse on earth. God pity the poor wife with an intemperate man. Her life's happiness will be completely destroyed by such a union. Better a thousand times the single, free and independent maidenhood than married to a man addicted to dissipated habits. Don't go down town every night to see a man, and then expect your wife to be smiling when you come home.
